Singing Rock is climbing

SINGING ROCK is climbing – and we live up to this motto. Our company is located in Czech Republic near Krkonoše National Park and Bohemian Paradise where are situated the amazing sand stone rock climbing areas. Most of our staff are climbers, alpinists or backcountry skiers. “Crazy cools” with ice axes, haul bags, skis and crampons. Most of them took their first steps within the sand stone labyrinths of Bohemian Paradise and hard granite of the Jizera Mountains. Some of them later continued to the higher mountains or have specialized on sport climbing or bouldering.

The Singing Rock Climbing Team has climbed hundreds of kilometres, as well as fallen down hundreds of times. Supported by a team of top climbers and mountaineers,

we are able to test and improve our products, developing functional as well as a high quality climbing equipment. Felipe Camargo, Carlos Logrono, Dušan Janák, Dejan Koren, Stráníci brothers, Luboš Mázl, Jitka Máizlová, Czech mountain guides and others help us to test and improve every product which is coming from our factory.

SINGING ROCK is always coming with new and original solutions on the market. For the first time in its history is introducing new “Ice Line” – products intended for mountaineering and ice climbing. These new products are just a start point and will be extended very soon with other tools for climbers who love ice and snow.

SINGING ROCK is also becoming more aware about the environmental impact of our production and products. We have committed to use more eco-friendly materials which have less impact on the environment. Products are produced from green raw materials and the team of Singing Rock is engaged to clean up rock areas and give conscience to future climber generation to preserve our planet. Organic cotton, organic bamboo or 100 % biodegradable bags are just the examples of our green steps towards a sustainable future.

SINGING ROCK is committed to bring you high quality and highly-functional equipment with minimal impact on the environment.

SINGING ROCK STAFF

Grand Capucin, Swiss route 6bAD, Mont-Blanc, France ■ Photo: Pavel Nesvadba

Kappa

Durable helmet for all climbing activities.

C0052

Kappa

- lightweight and durable
- universal size
- fully adjustable, fast and secure adjustment system
- adjustable chinstrap and headband for a comfortable fit

Bamboo cup

Have you ever wanted to drink from a cup that has been grown? Naturally grown, each cup is unique and self insulating. Made from 100% bamboo, these cups are biodegradable, and can be composted when you are finished with one.
 Material: 100% Eco Friendly Bamboo (2 years from seed to cup)
 Care: Cups should be seasoned by leaving tea in overnight before first use. Hand rinse with hot water. Do not use soap. In a dry climate, don't let the cup dry too quickly, or it will crack.
 Capacity: aprox. 250 ml (8.45 fl.oz.)

Face

SINGING ROCK has prepared special two parts crash pad with innovated and unusual design. Larger dimension and new shock absorbing sandwich construction will satisfy all climbers focused on bouldering.
 Material: foam: 30mm Polyethylene foam, 70mm Polyurethane foam
 100% nylon, 100% + antislip nylon
 Dimension: 116 x 95 x 10 cm (3,8 x 3,1 x 0,3 ft.)
 Weight: 3,7 kg (130,5 oz.)

100% Organic T-shirts

Made from 100% organic cotton and dyed with 100% clay, double-stitch on sleeve, bottom hems and shoulder to shoulder tape will make this T-shirt last for many years to come. Tagless label, relaxed fit. Ladies version with longer and better fit. Fabric: 100 % organic cotton.

Man:
 Size: S, M, L, XL
 Color: grey, brown
 Designs: Grand Capucin, Mountains

Woman:
 Size: S,M,L
 Color: pink
 Designs: Eights
